

About us

Around Taiwan surrounding seas, moreover also has many islands, is one territory which is composed of the archipelago, the Island of Taiwan also names of "Formosa", therefore in common people's eye the sea ecology's conservation work should be our one of education and national policy key projects. However, the phenomenon which the people saw before present, is actually depends to us thought that the fresh ecological environment, does not respect and the ignorant destruction very, moreover is getting more and more serious, for example: Crosses the fishing, the pollution, the place destruction, six kilometers to have a harbor, not, when the mole overflows to constructAnd so on, too numerous to cite individually, but completely does not take seriously by no means on its root people, but to this aspect knowledge and idea unusual lacking.

Therefore we discovered that must improve this kind of flaw (sea ecological environment care idea popularization insufficiency) only then to begin from the most basic place, that is educates.

Taiwan marine environment education promotion association (TAMEE) is produces under such condition, crowd of sea related domain family background's young people, have the sea affected experience, this considers arouses more people to show loving care for the sea the heart, hoped that union more folks the abundant strengths, to the sea enthusiasm, will spread to each corner.

We want to penetrate each kind of education the method, accompanies everybody to arrive at the seashore truly, arrives in the environment, knew that will be more, the understanding to be more, to have more moves, will be moved turns into the motion, will let more people treasure our marine environment together in each domain.

Service content
